Oklahoma Direct Feeder Cattle Trade

OKLAHOMA HAY MARKET REPORT

3-6-20

3-5-20

Alfalfa and hay trade movement continues very slow and much of the hay trade remains steady. Most of the Alfalfa quoted at the top of the price ranges, had to be flawless. Milk prices declined in the past week, after making some good advances. These declines are reducing the demand for Alfalfa hay. Producers are about a month and a half away from new crop hay and hoping markets will have come back to some sort of normalcy. According to the U.S Drought Monitor and the Oklahoma Mesonet, much of the state is in good shape as far as moisture. Only the far western tip of the panhandle and the southwest portion of the state show abnormally dry to moderate drought with only a small section in severe drought.

Alfalfa.
